

AI Act compliance from day one

The EU AI Act regulates the world's first broad AI framework. We help you classify AI systems, document usage, and meet transparency requirements for high-risk systems.

COMPLIANCE

Workflow tools, datapoints, reports.

ACADEMY

Training, certificates, exam.

What you get

- ✓ AI system inventory with risk classification
- ✓ Conformity assessment workflow
- ✓ Transparency documentation for end users
- ✓ Bias and fairness monitoring templates

Use case

A SaaS provider uses LexiCompliance AI Act to classify their 12 AI features, document training data, and generate compliance declarations ready for EU oversight – without needing an in-house legal team.
