

Deforestation-free imports documented

EUDR requires importers of soy, palm oil, cocoa, coffee, rubber, timber, and beef to demonstrate that production has not driven deforestation. We track shipments down to geocoordinates.

COMPLIANCE

Workflow tools, datapoints, reports.

ACADEMY

Training, certificates, exam.

What you get

- ✓ Geocoordinate query per shipment
- ✓ Country/region-based risk assessment
- ✓ Due diligence statement generation
- ✓ Traceability all the way to origin farm

Use case

A coffee importer uses LexiCompliance EUDR to trace 10,000 shipments per year down to origin farm, automatically validate geodata against deforestation databases, and generate DDS for each customs clearance.
